

This Month's Event

Tuesday, September 15, 2009

Colin Bates

Meier Architecture • Engineering

Dale Green

Meier Architecture • Engineering

Todd Thompson

Apollo Sheet Metal

About the Speakers:

Colin Bates and Dale Green are currently working for Meier Architecture•Engineering and were responsible for the design of the mechanical systems for Chiawana High School.

Mr. Bates is a graduate of the University of Washington and has nearly 5 years of experience in the design of HVAC and plumbing systems for various commercial and light industrial buildings.

Mr. Green is a graduate of New Mexico State University and has 15 years experience in the design of HVAC and plumbing systems for commercial and light industrial facilities.

Mr. Thompson works for the controls division of Apollo Sheet Metal. Mr. Thompson was responsible for the implementation of the control system at Chiawana High School and was instrumental in ensuring the HVAC systems worked as intended in the design.

Presentation Title: *Chiawana High School Mechanical Tour*

An overview of the mechanical systems will be given followed by a demonstration of the control system. Following the overview, a walking tour of the schools mechanical systems will begin. **Bring your walking shoes, this is a very large school.**

Pizza will be served in the commons area after the tour.

Location: Chiawana High School Commons
8125 Argent Road
Pasco, WA 99301

When: 6:00 pm

Cost: \$10.00 for Adults
\$5.00 for Students

RSVP: Colin Bates at (509) 735-1589 or e-mail at cmbates@meierinc.com
Please RSVP by October 13, 2009 if you plan to attend.
